

BIOGRAPHICAL SKETCH

Guy W. Mercurio

Mr. Mercurio is employed by Defense Logistics Agency (DLA); Defense Contract Management Command (DCMC), Software Center as the Tools and Special Projects Program Manager. He has over 13 years of technical and surveillance experience in the field of software development with specific emphasis on proposal review, project surveillance planning and software development process improvement.

Prior to the position at the DCMC Software Center, Mr. Mercurio was employed by DCMC General Dynamics Defense Systems - Pittsfield, Massachusetts as a Computer Engineer from 1994 through 1997 and he was the Software Engineer for DCMC Hamilton Standard Windsor Locks, Connecticut from 1992 through 1994. Along with his duties of performing software surveillance at both Hamilton Standard and General Dynamics Defense Systems, he also participated in development of the Software Professional Development Program (SPDP). He has also participated in various Software Capability Evaluations (SCE) and is the Defense Logistics Agency representative on the ISO/IEC SC7 WG10 for Software Process Assessments.

From 1985 to 1991, Mr. Mercurio was employed at General Electric Ordnance Systems as a Systems and Software Engineer on the Trident Fleet Ballistic Missile (FBM) Program where he was responsible for the software development.

He has a B.S.E.E. from the University of Massachusetts - Dartmouth with a major in microwave communications.
