### *Larry LaBruyere*

Mr. LaBruyere works on the FAA SETA contract as the TRW task lead for process improvement support to the FAA Chief Scientist for Software Engineering (AIT-5). Mr. LaBruyere has over 25 years experience in software and systems engineering (full life cycle), of which over 7 years was with the federal government. He has been with TRW for over 15 years. He taught at Northern Virginia Community College (part-time) for three years. Mr. LaBruyere has a BA from Anderson University (Major: Math, Minor: Physics/Computer Science) and an MS from American University (Major: MIS/Computer Systems). Mr. LaBruyere is authorized by the Software Engineering Institute as a lead assessor for Capability Maturity Model (CMM) Based Appraisal for Internal Process Improvement (CBA IPI). In addition he has been trained in the SEI's Software Capability Evaluation (CBA SCE) methodology and has participated in multiple SCEs. Mr. LaBruyere is authorized to teach the Practical Software Measurement (PSM) course.

Larry LaBruyere - (202) 651-2108
