Thursday, 22 July 1999

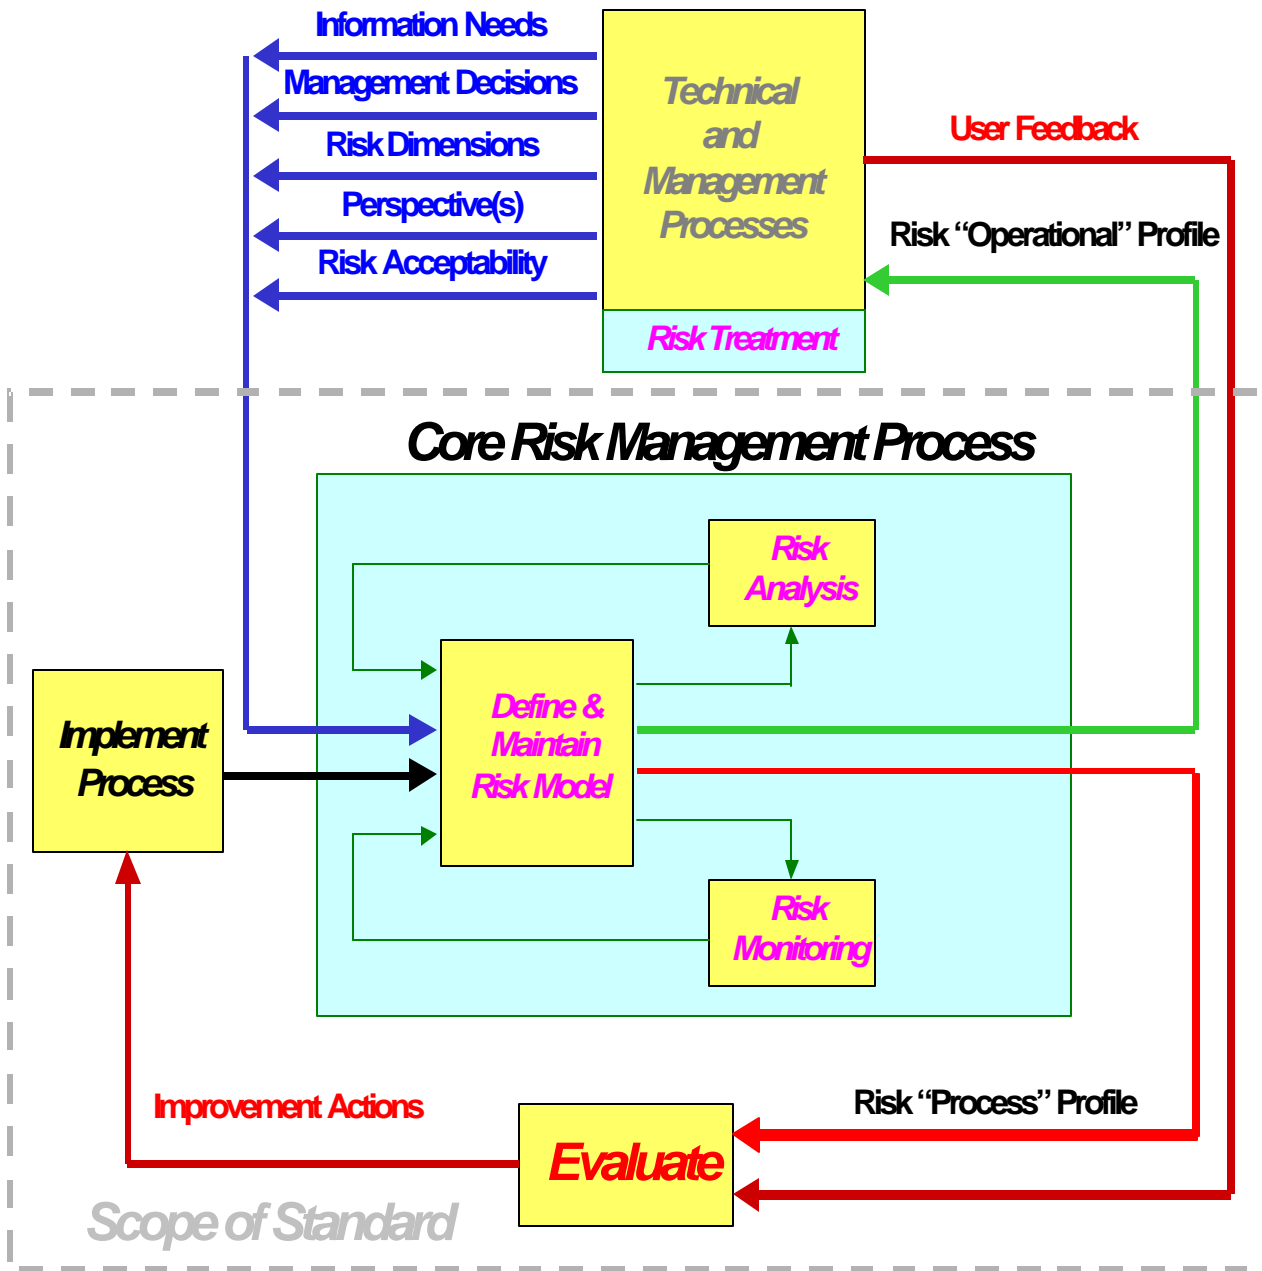

Morning

- Continue Draft's Review by Section

Lunch

Afternoon

- Finish Draft Review by Section
- Summarize Comments/Proposed Changes
- Develop Summary for Friday's Out-briefing
- Develop Follow-on Actions

Informative Diagram of Risk Management Process

Issues & Concerns

Constraints

- ❖ ***“Minimalist” standard***
- ❖ ***Focus on “What is to be done” not “How it will be done” or “Who (specifically) will do it”***
- ❖ ***Group risk management standard***
- ❖ ***In line with IEEE 12207 & others***
- ❖ ***ISO risk terminology***
- ❖ ***Reduced redundancy***
- ❖ ***Don’t take forever***
- ❖ ***Not a risk management jobs program***

Concerns

- ***Consistency of terminology & processes***
- ***Minimizing redundancy***
- ***Minimizing standard size - not a RM tutorial***
- ***Achieving consensus among multiple interests***
- ***Supporting current & future RM practice***
- ***Other Issues & Concerns?***
