

Mr. Majewski is a specialist in the design, development, and integration of large-scale Enterprise-wide IT/IM (Information Technology/Information Management) initiatives. He applies Information Technology (IT), Systems Engineering (SE), Systems Integration (SI), and Enterprise Resource Management (ERM) disciplines and techniques to integrate enterprise Information Systems (IS) into an Integrated Digital Environment (IDE).

Currently, Mr. Majewski is Services Manager for Distributive Software, developer and vendor of the MetricCenter performance measurement tool, and a recognized leader in the field for process and program performance measurement. Mr. Majewski has the responsibility of overseeing MetricCenter implementation at customer sites to ensure complete satisfaction of managers in the customers organization. This satisfaction includes interface and leverage of any existing legacy metrics capability as well as developing new capabilities to enable managers to achieve their program objectives. Mr. Majewski is currently responsible for long-term implementation at Lockheed Martin Engineering Process Improvement Center, Owego NY.

Prior to DS, Mr. Majewski was assigned to the Chief Engineer, PEO Carriers, and developed and implemented the PEO Carrier Implementation Plan for NAVSEA CDMS (Command Document Management System). This was done in cooperation with the implementation plan of the Chief Engineer of the Navy CEE (Collaborative Engineering Environment)

.Mr Majewski managed all IMS projects under the AEGIS Configuration Management/IMS Contract at NSWC Dahlgren. The largest project is the ACCESS (AEGIS Configuration Control and Engineering Status System) IMS/Database development and implementation project.

Mr. Majewski also managed the ACS CM Integrated Digital Environment (IDE) project which will transition Aegis Document Imaging System (ADIS) into a fully integrated digital environment for all ACS CM operations. Mr. Majewski served on the Navy IDE Working Group and ACS CM IDE was designated a pilot project.

Mr. Majewski is a graduate of Point Park College, Pittsburgh Pa., with a degree in Computer Science.
